Let us tell you a small story ...

Starting with a question ...

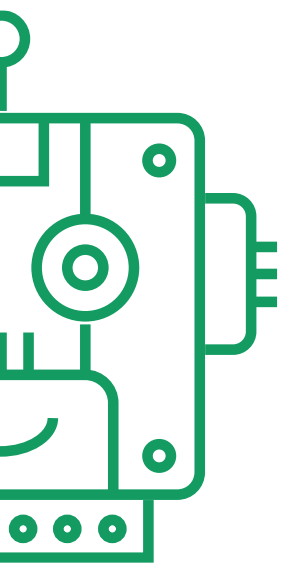

**How to assure the quality of
your solutions/services?**

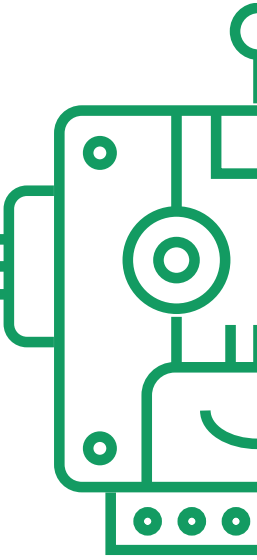

*“The quality of our products/services is governed by the **quality of the process** used to develop, manage and evolve them.”*

**Watts Humphrey,
Software Engineering Institute, CMU USA**

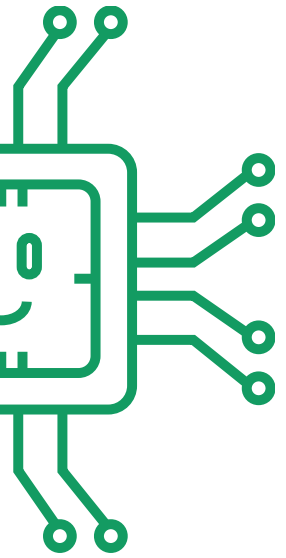

Process Improvement

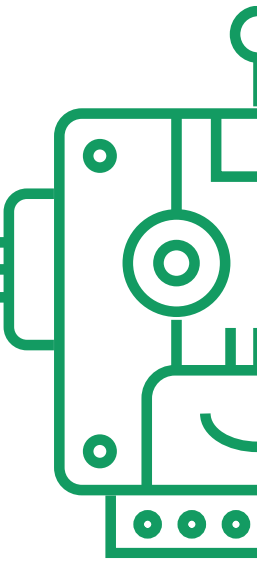

Context

Process improvement starts
with a correct understanding
of the word “process”.

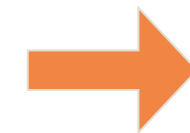

It means “work”.

Process Improvement

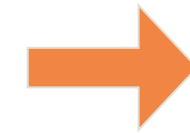

Processes Improvement

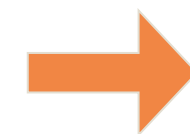

Work Improvement

People Improving Processes

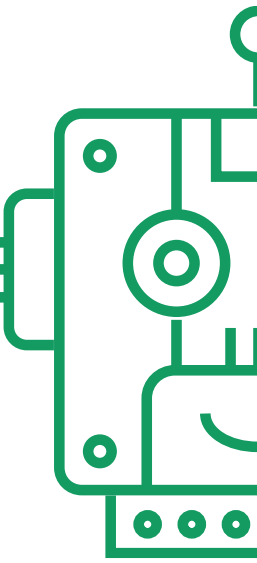

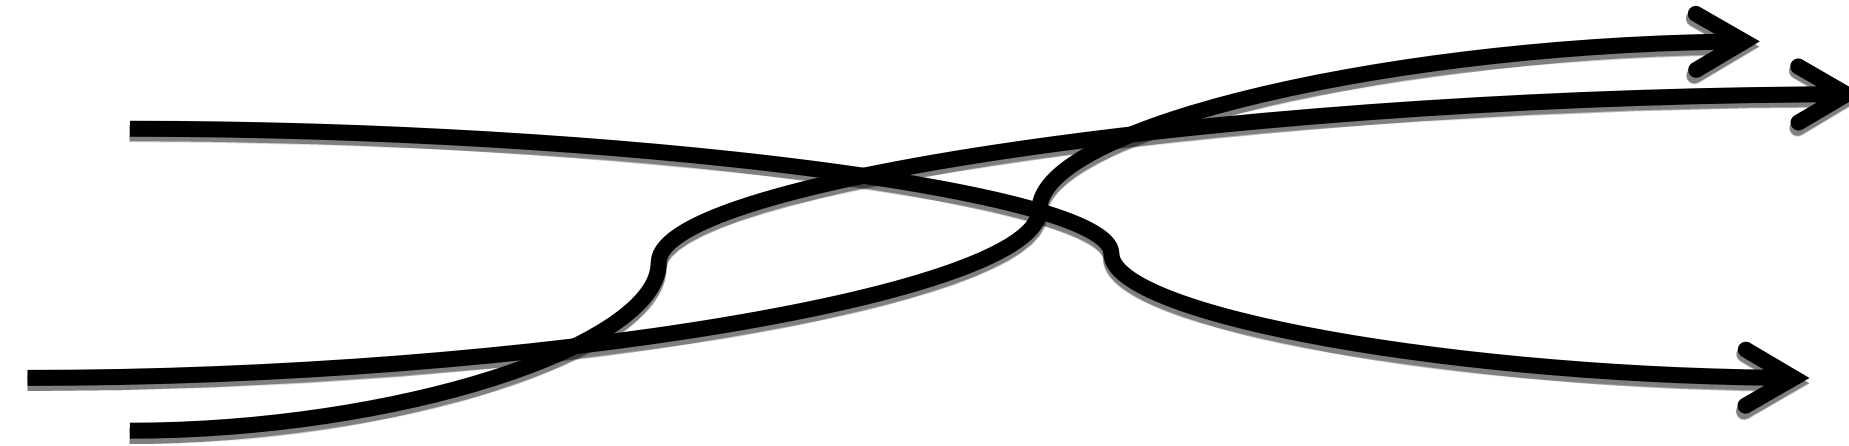

People Improving Work

Quality depends on our Processes

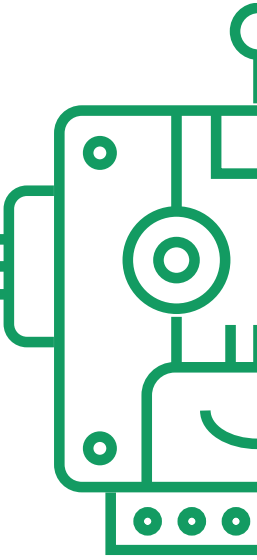

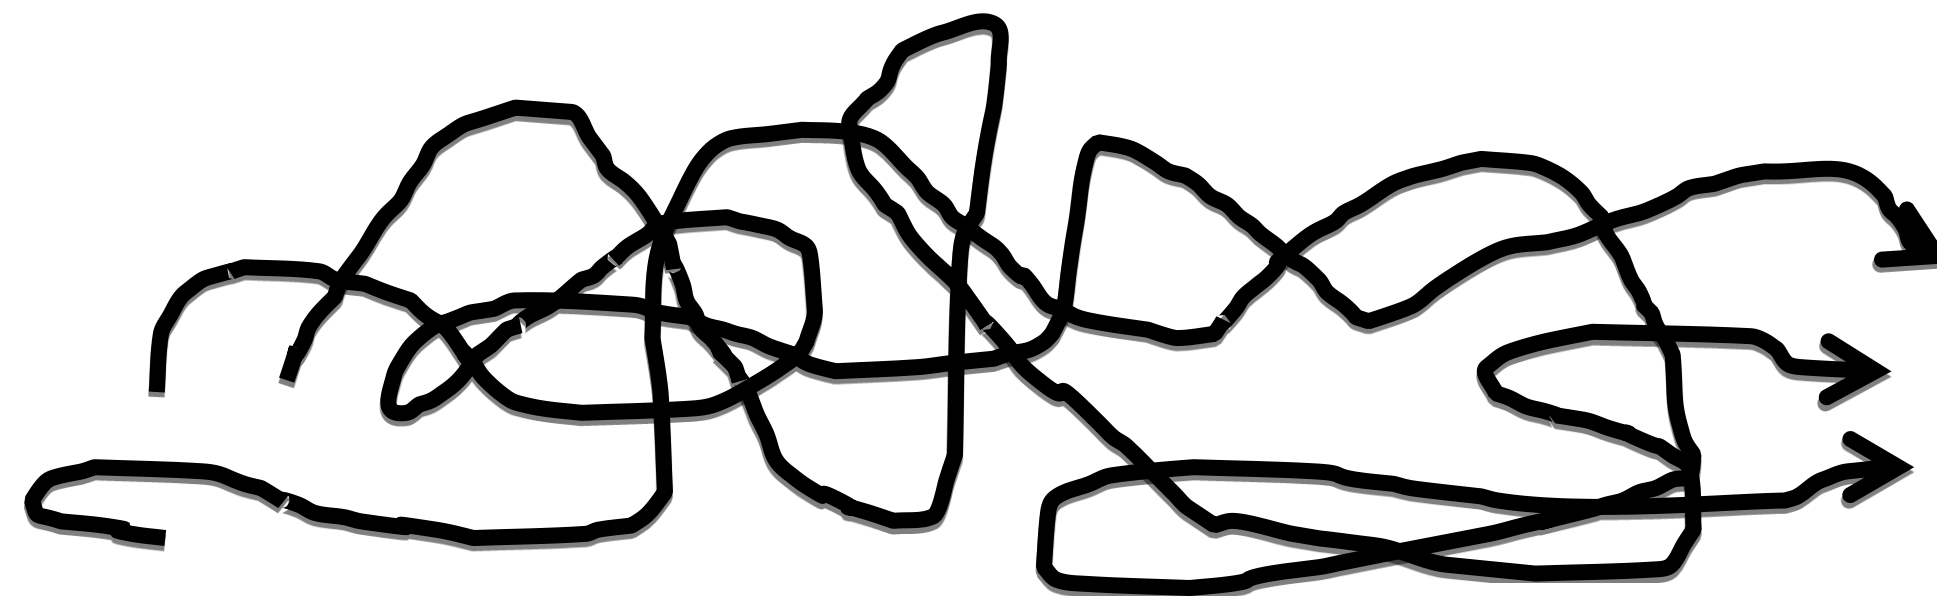

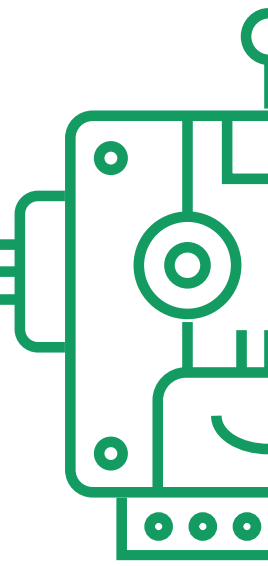

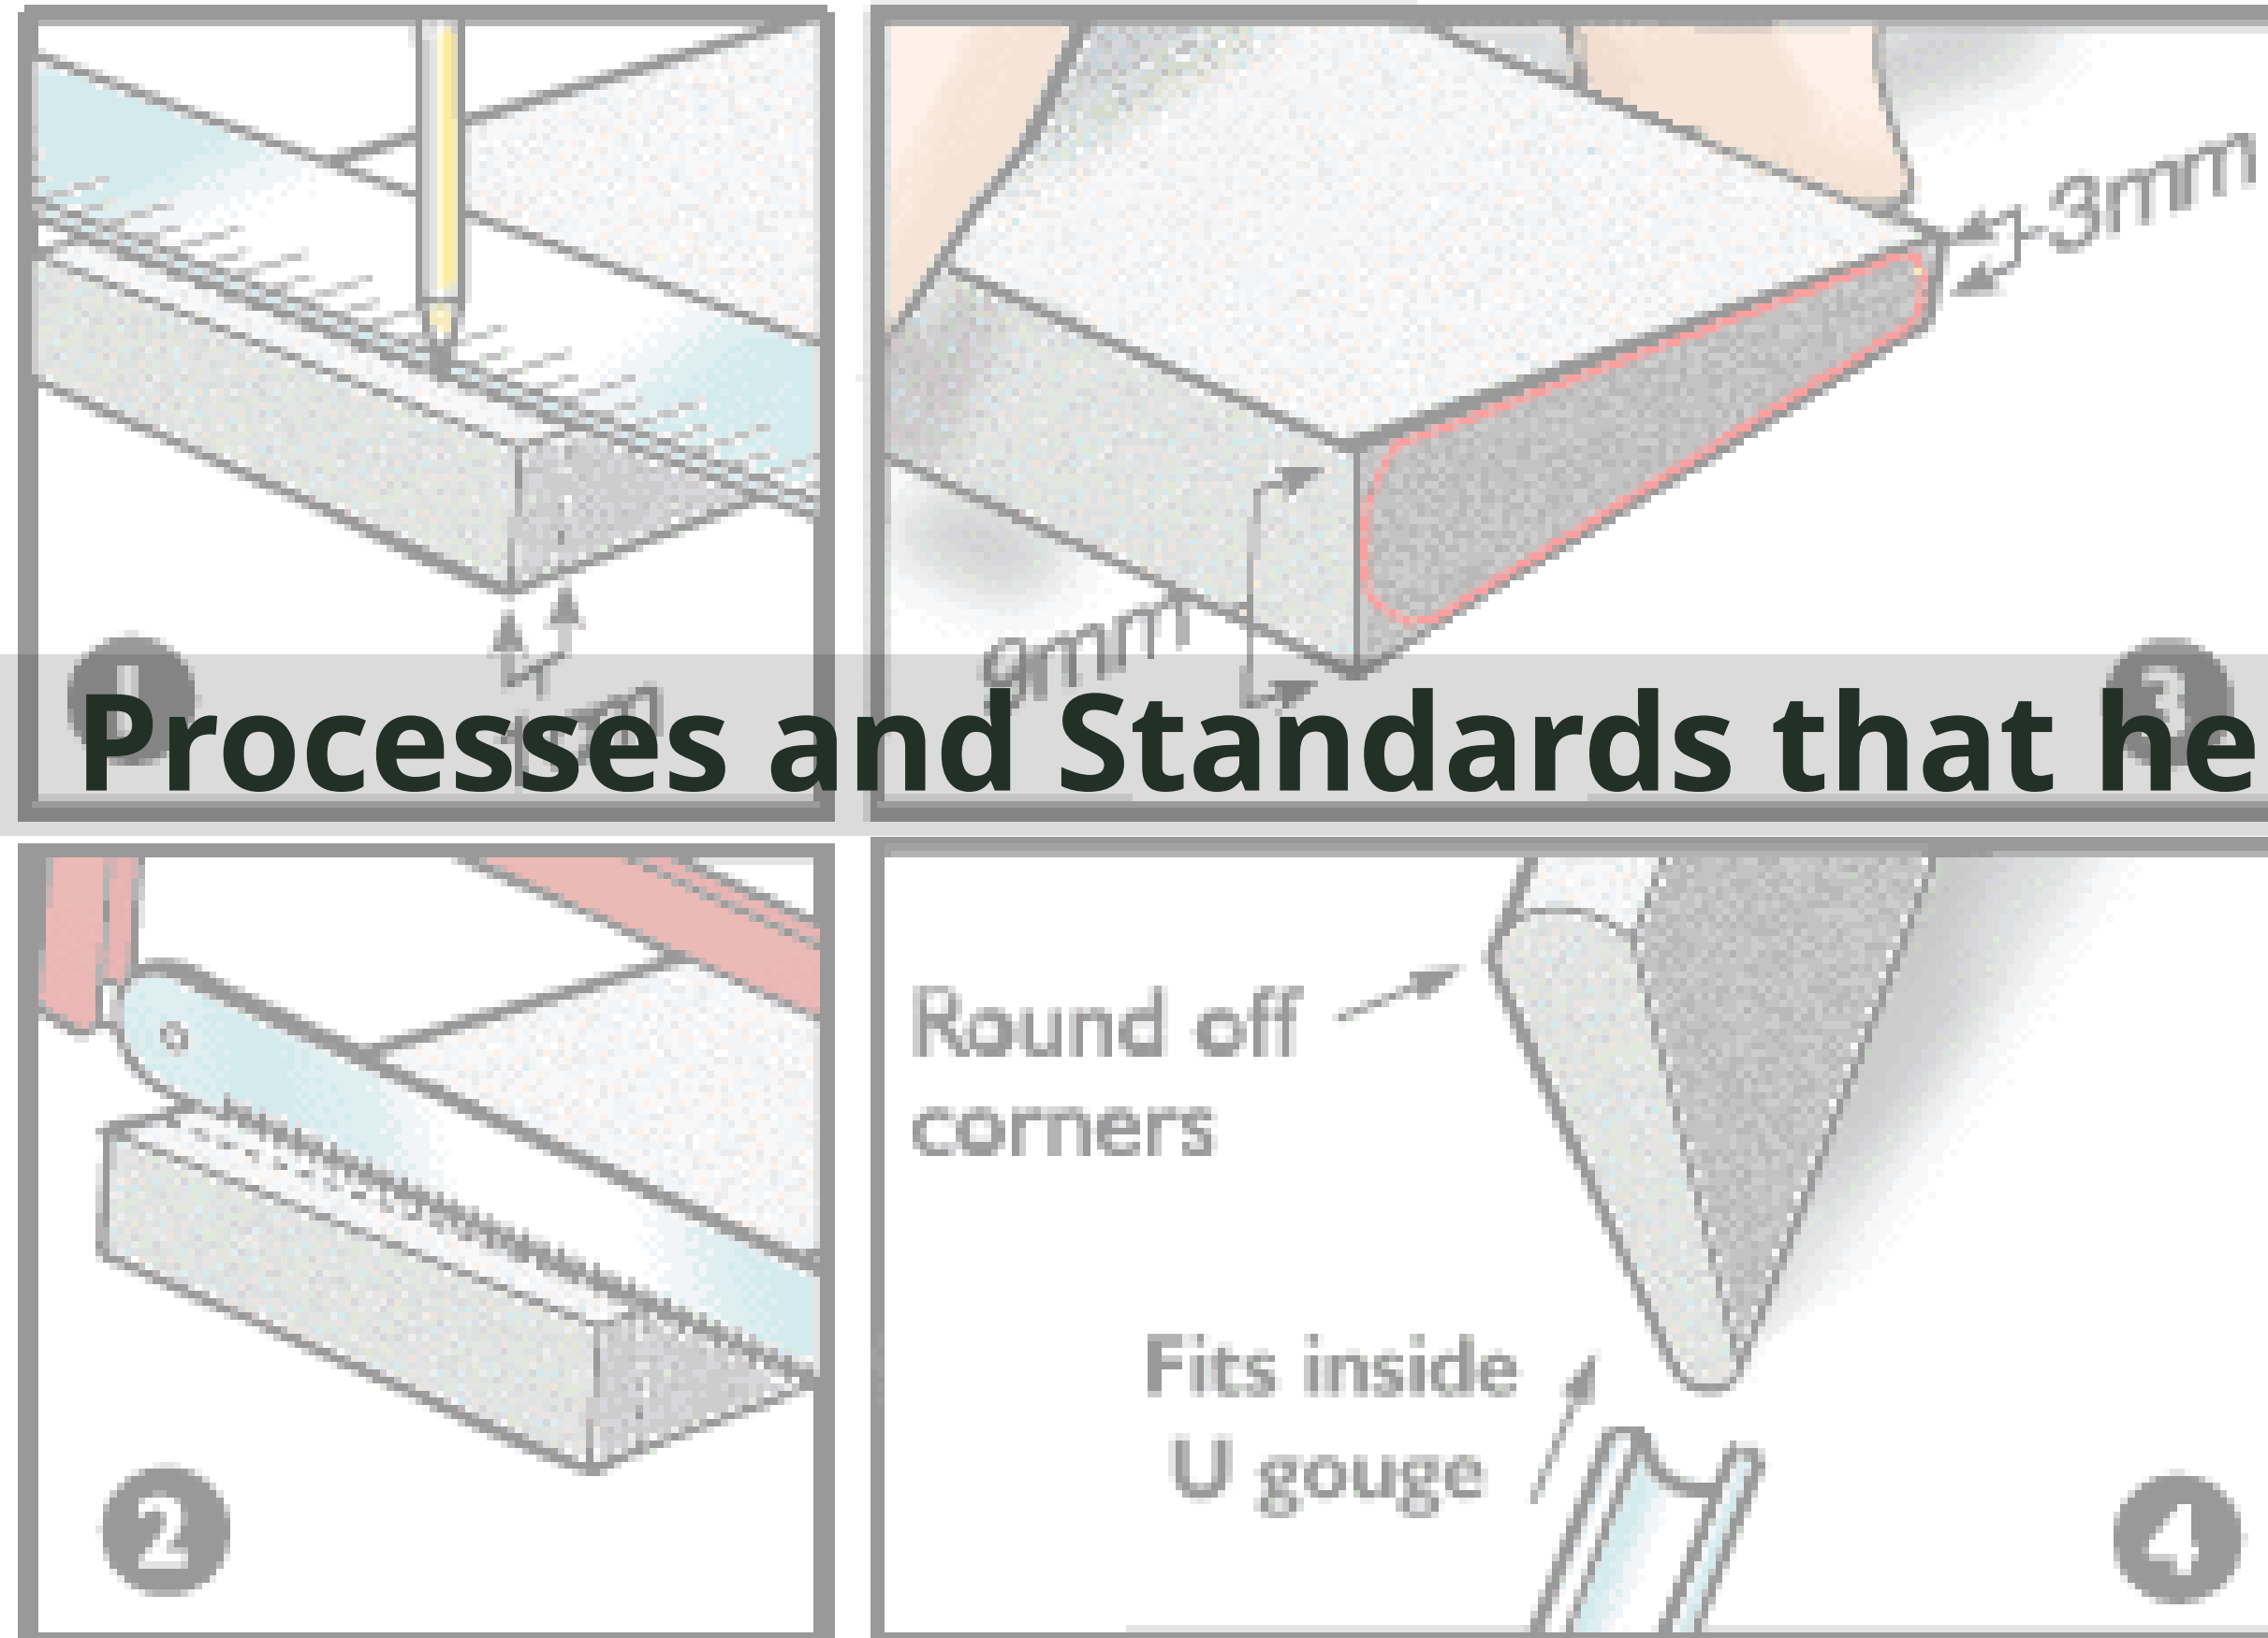

Quality Depends on our Work

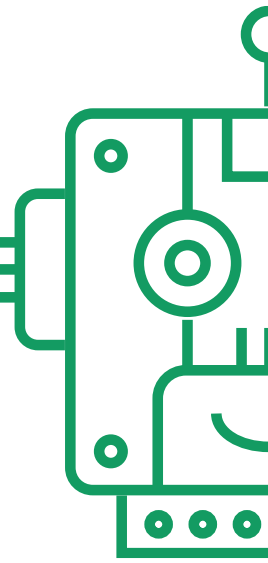

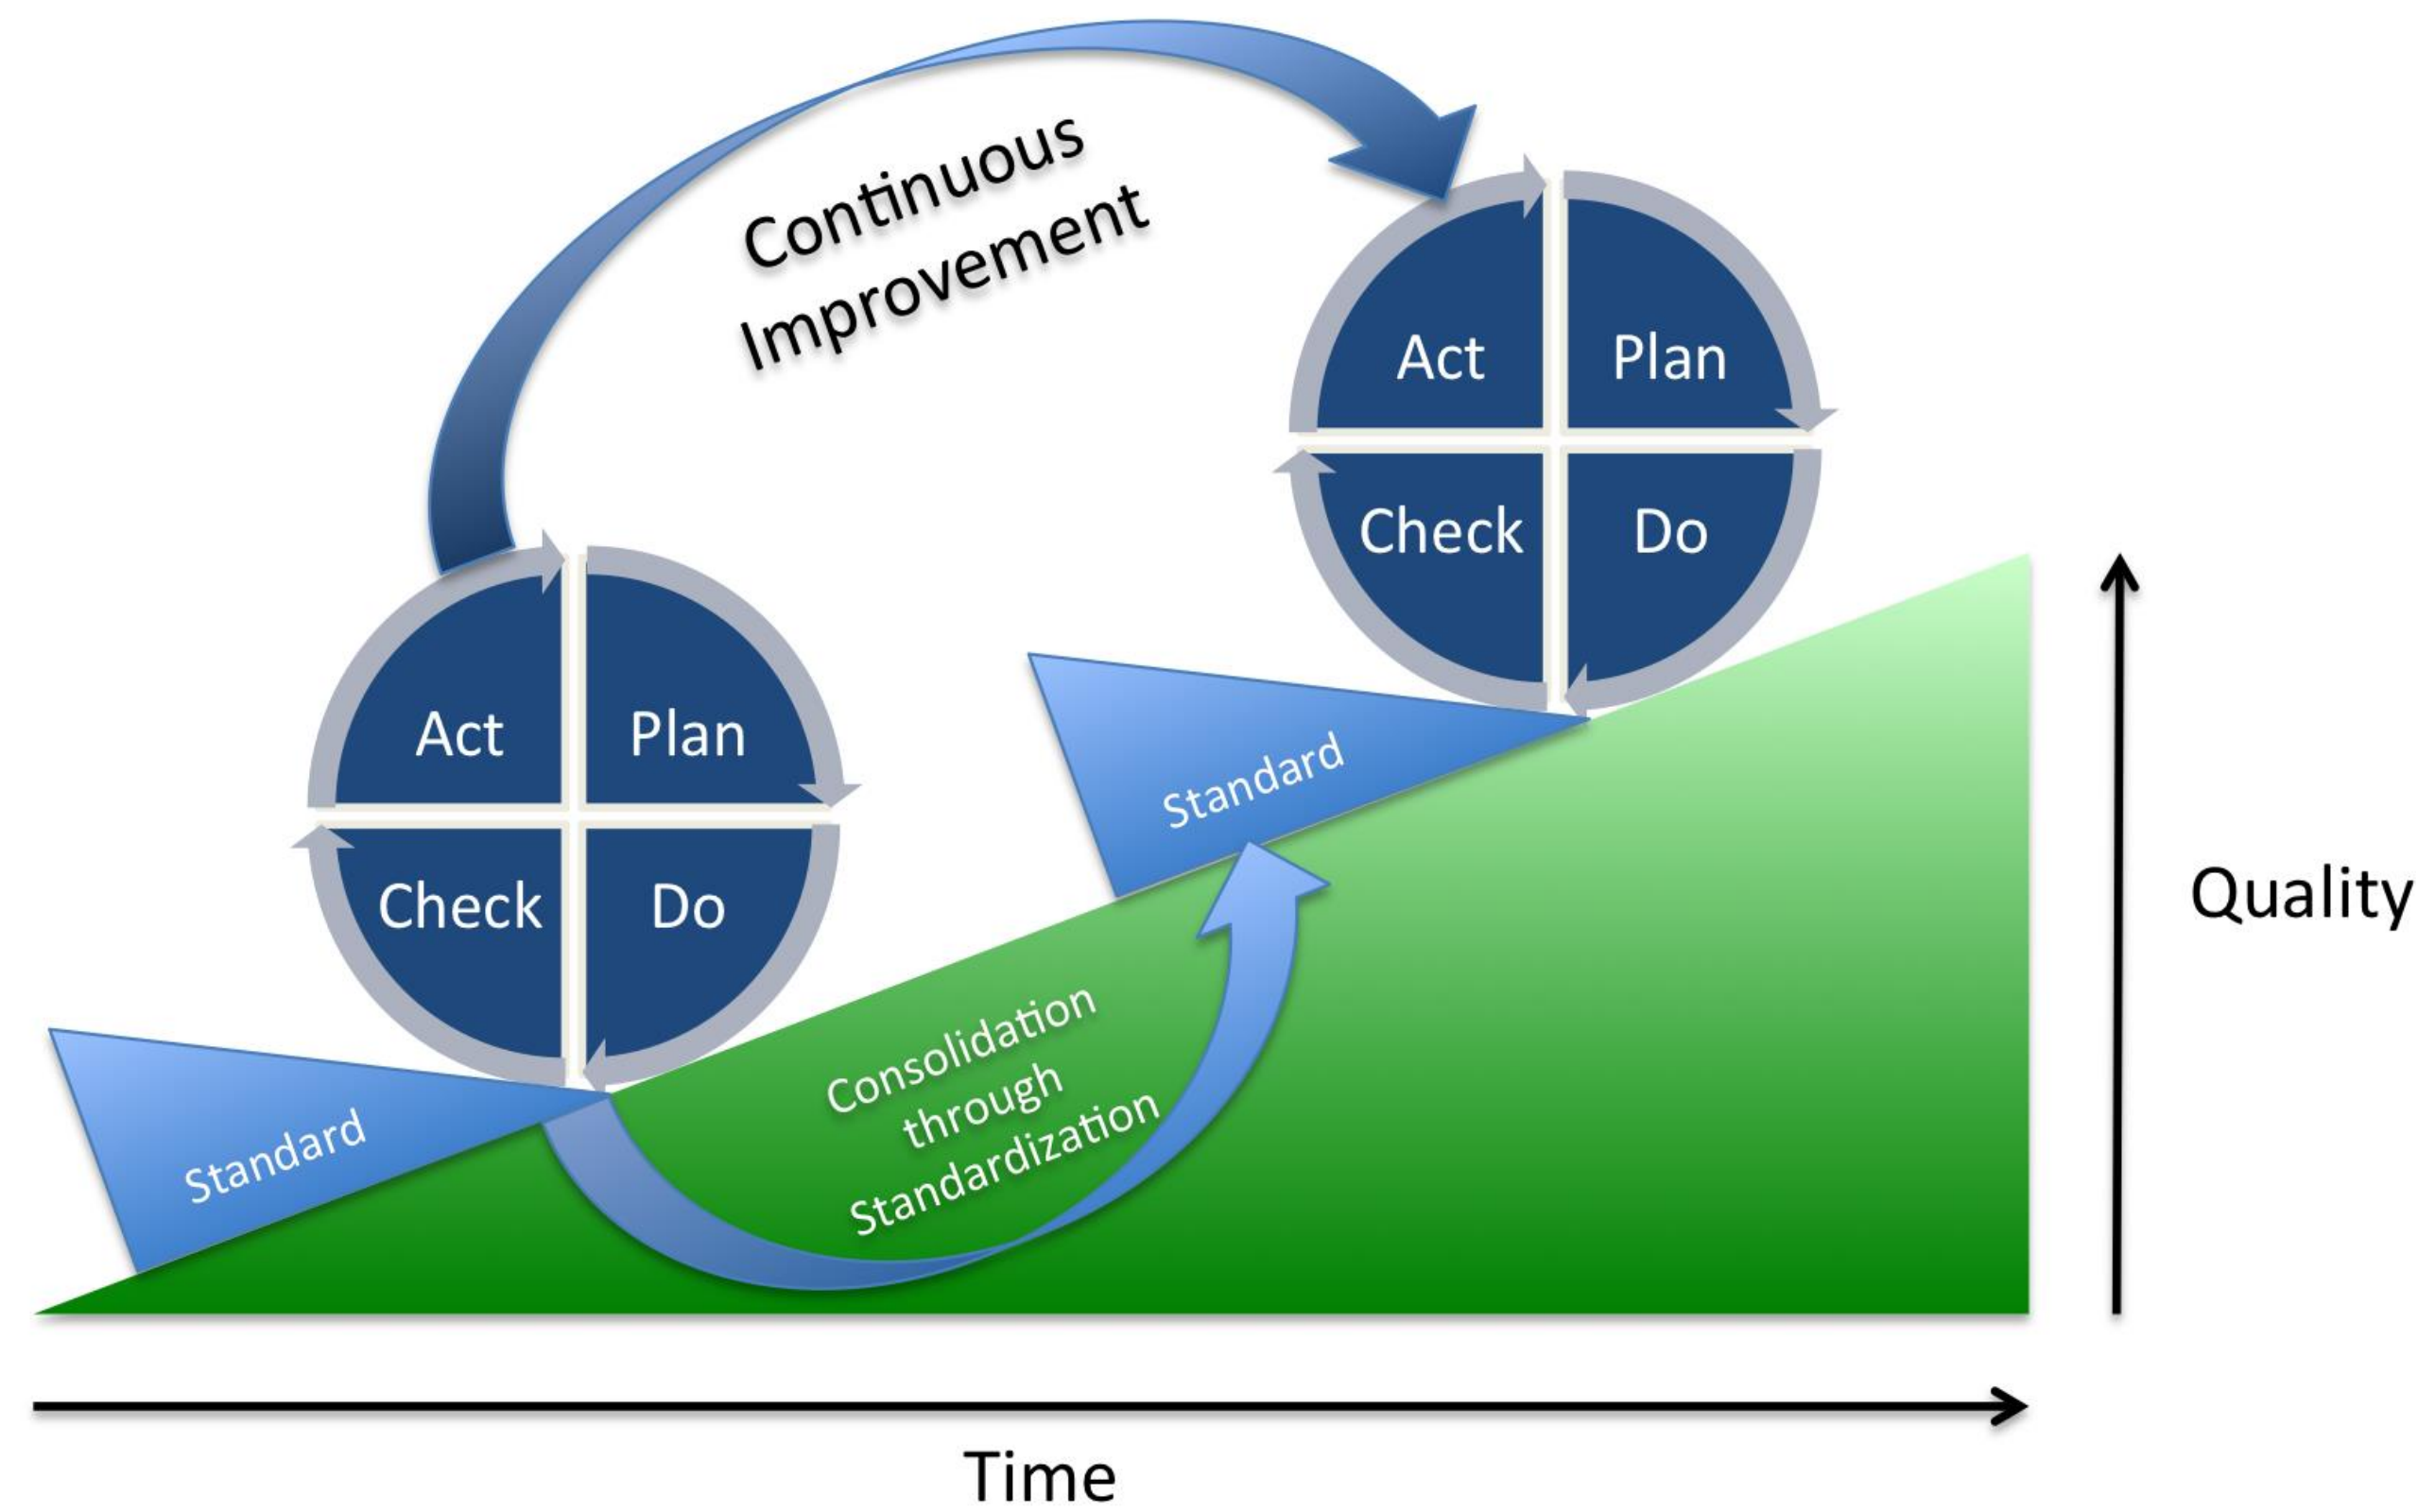

Small and Medium Enterprises have few or no working standards

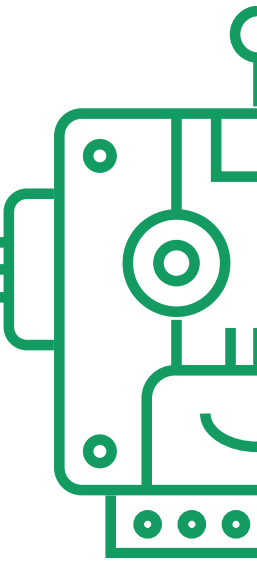

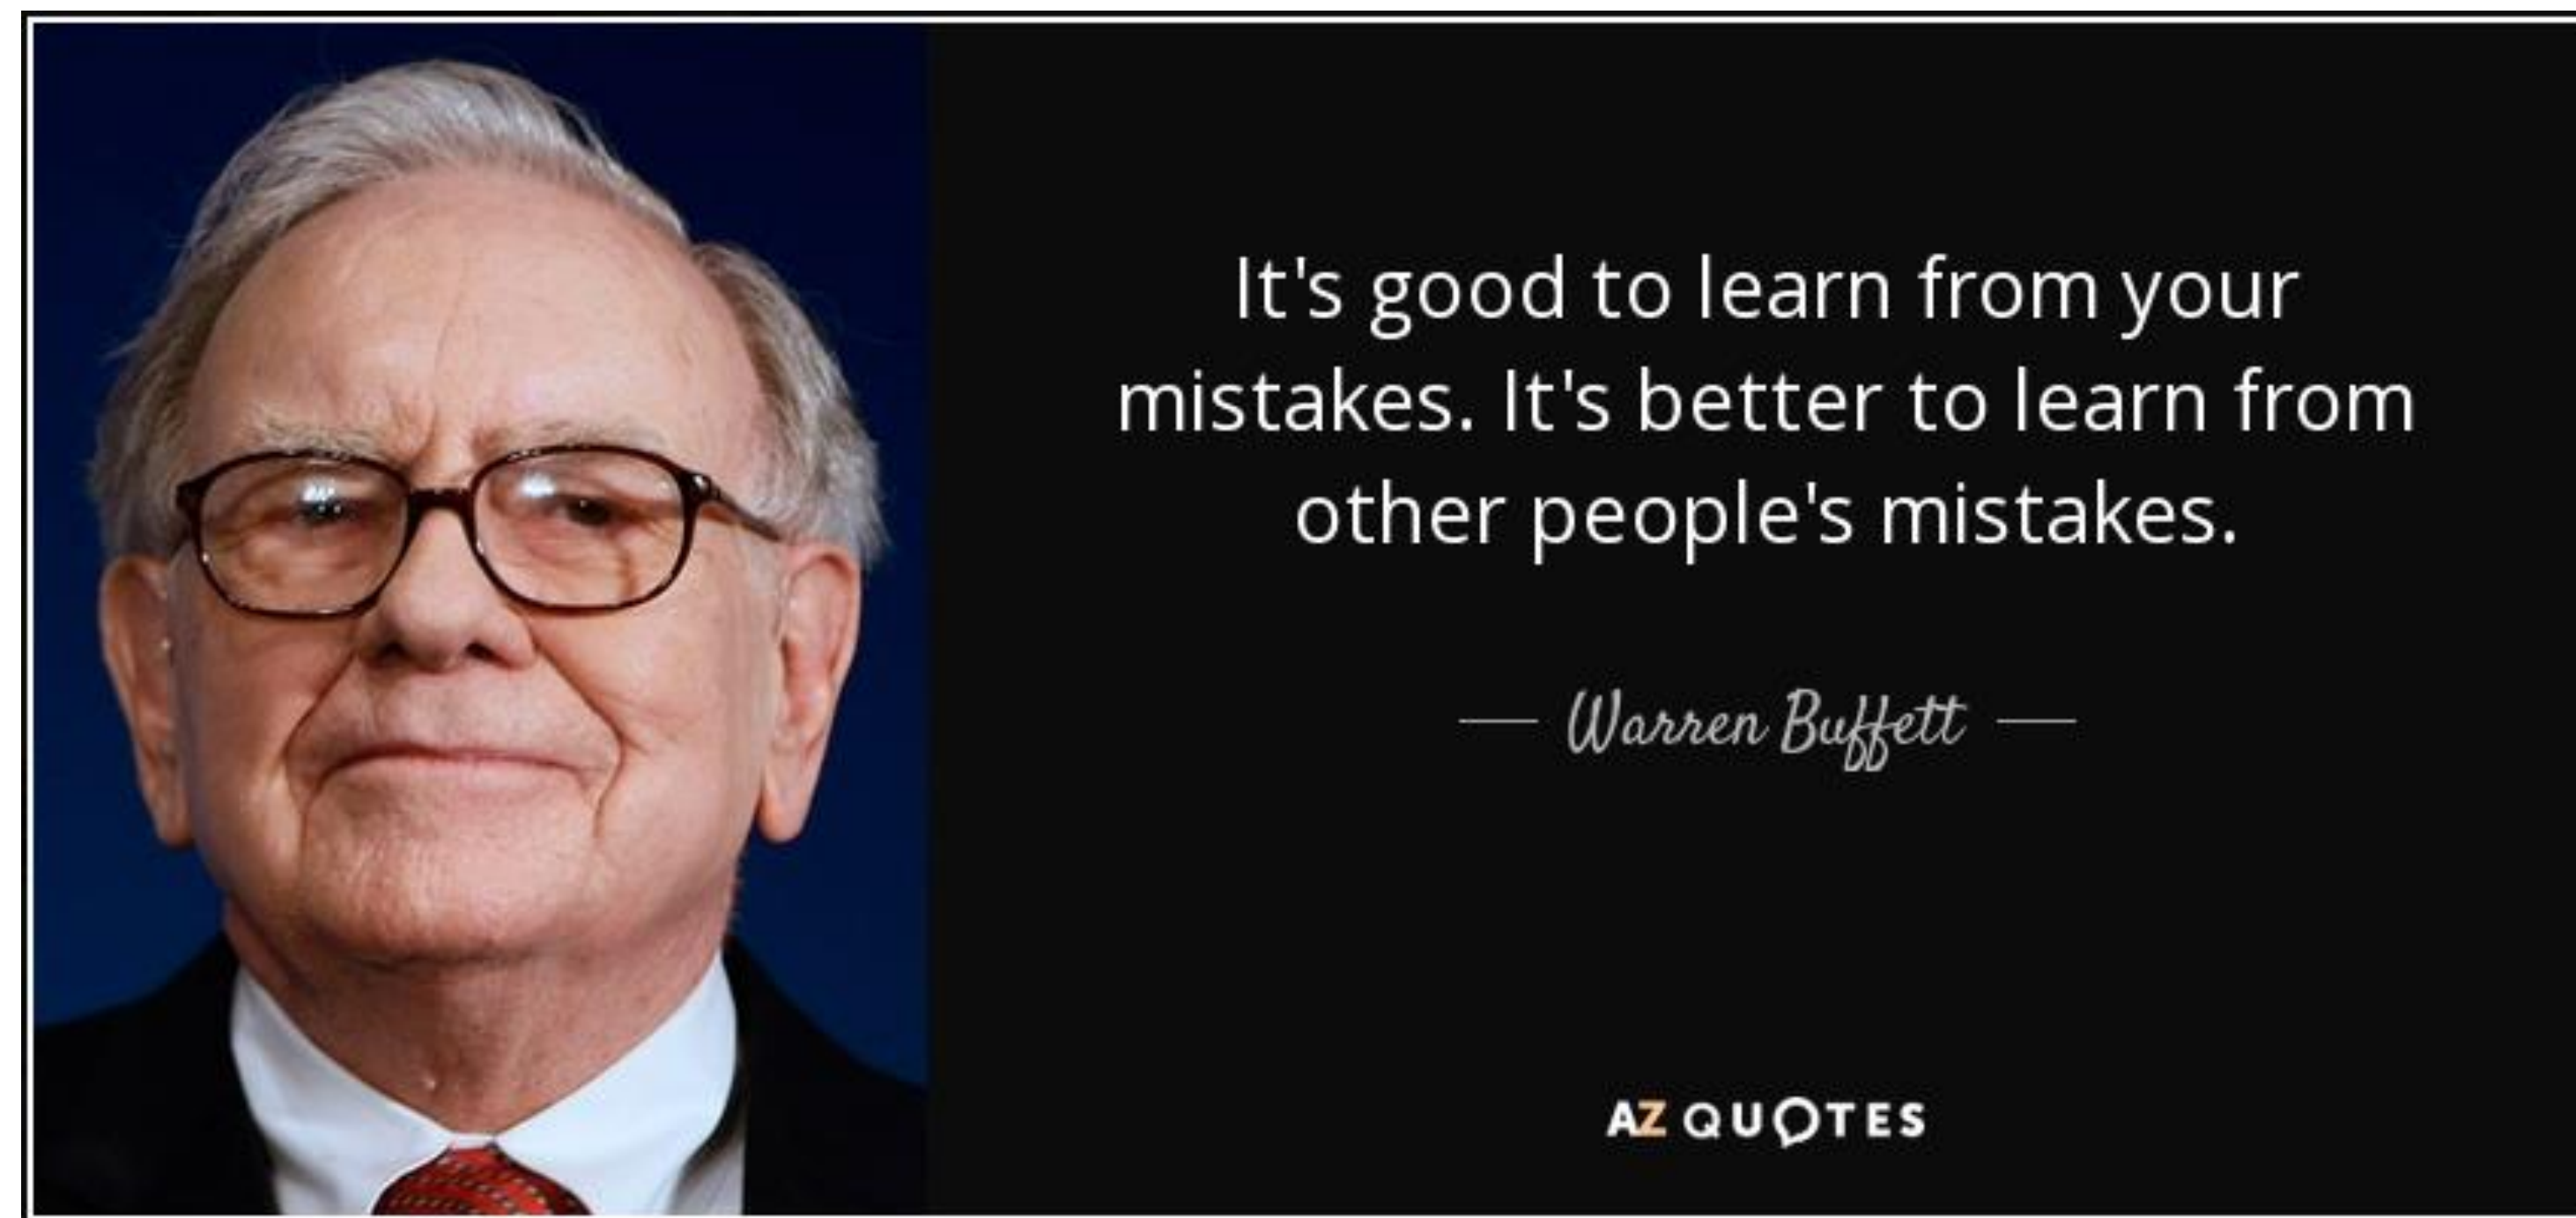

Continuous Improvement

Its about sharing and learning.. Best Practices

Learning From Others Mistakes Is A Great Way To Save Yourself: A Whole Lot Of **Time, Money, And Pain**

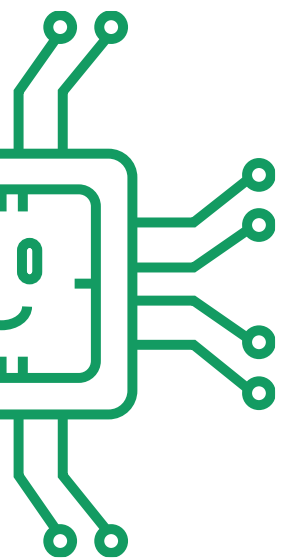

How to leverage your organization capabilities?

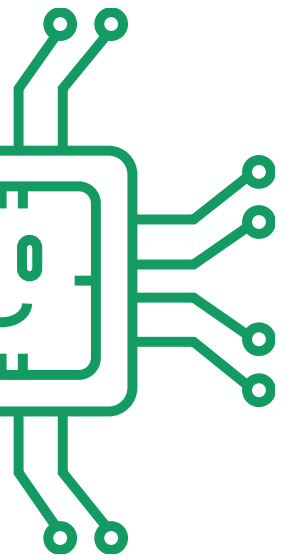

By **improving your processes & best practices** set that you use

Strongstep can help our partners:

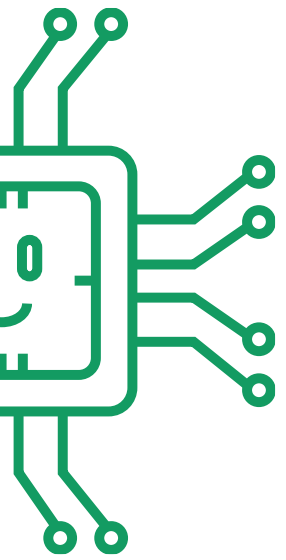

- Consolidate organization Best practices
- Work with the best internationally
- **Bringing the community together** to make it **Stronger and larger international**
 - In that context **today** these are good **moments of sharing**

Which best practices?

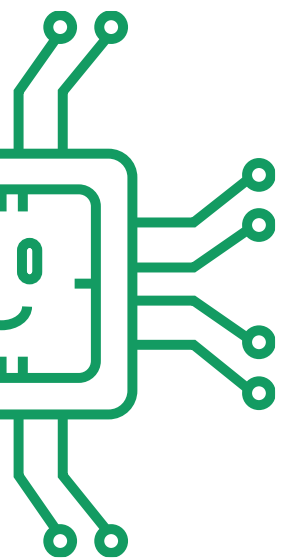

Frameworks, certifications & International good practices

Improving Performance - Through Processes

Primavera CMMI2 Case with Information Security alignment

Primavera Business Software Solutions joins the elite of international companies with CMMI level 2 certification.

David Afonso, vice-president of Primavera and Paulo Correia, CMMI project manager, explain what benefits you get by doing this certification.

Check out the news and the video, **click here**

Innowave Case – ISO 27001

InnoWave is part of an elite group of international companies providing software development services globally, and is already CMMI level 3.

To achieve the required quality standards, Strongstep outlined an improvement project with InnoWave that included information security performance indicators and implementation of key InnoWave support processes and infrastructures.
